

# PRESS RELEASE

**Dortmund, May 8, 2007**

## **SAP Service Provider UNIORG expands internationally with its customers and founds US-branch UNIORG Inc.**

Starting May 2007 the Dortmund based SAP Service Provider UNIORG launches business in the USA with their branch UNIORG Inc. in the Pittsburgh, Pennsylvania area.

With this enterprise UNIORG attains being a competent and reliable partner also for their customers in the USA. Stefan von Rintelen, an experienced SAP consultant with long year's knowledge of business in the USA, heads the management of UNIORG Inc.

„In the USA we will offer a complete range of services from management consulting, SAP-consulting and implementation also including user-training and education”, says Stefan von Rintelen. “Initially we offer the on-site support and services to our internationally operating German customers on the basis to which they are accustomed. At the same time our strength will be the support of US companies with their roll-outs in Germany and Europe.”

“Many of our customers have recently established branches on the American continent and expressed the need of local support by UNIORG. And further more the US market on it's own offers many opportunities in the SAP business, so that this step proves to be advantageous economically”, comments UNIORG's CEO Norbert Lakämper on the expansion of the company. “Further more we are confident, that with Stefan von Rintelen we have gained an expert, who will master the challenge.”
